PROFESSIONAL SUMMARY

Director of Product currently building Lycia AI — an autonomous AI agent platform deployed in hotels, airports, malls, restaurants, and offices. Took the product end-to-end from concept through multi-vertical commercial deployment. Hybrid background of product strategy, customer development, and product design; comfortable owning a vertical from market research through pricing through release. 10 years across SF Bay Area startups and healthcare. SAFe Agile Expert. Multilingual.

PROFESSIONAL EXPERIENCE

Director of Product, Lycia AI

2023 – Present

San Diego, CA

- Own product, strategy, and design for an autonomous AI agent platform deployed across five verticals — hotels, airports, malls, restaurants, and offices.
- Built lyciaai.com end-to-end from initial concept through multi-vertical commercial release; agents now in production with paying customers.
- Authored the multi-sided commerce-network thesis: hotels as demand side, restaurants/music venues/activities as supply side, with cross-side commission flows. Informs all major product, pricing, and GTM decisions.
- Defined pricing strategy across multiple verticals and SKUs — \$10/room/month flat and \$0 plus commission — informed by competitive analysis vs Mews, Cloudbeds, Hijiffy, Quicktext, Asksuite, Canary, PolyAI.
- Authored a 40-page hospitality AI market analysis (sourced from AHLA, STR/CoStar, Cornell, Oracle, Phocuswright, Skift) used in sales, fundraising, and roadmap.
- Drove the AI-first product positioning from the data model up — staff inbox, multi-staff auto-assign with on-duty filtering and load balancing, sentiment-aware escalation, automation rules engine. Architectural choices became the company's differentiation vs FAQ-chatbot competitors.
- Authored 18-page strategic thesis on the U.S. independent-hotel expansion (\$288M SAM, 12,000 addressable properties, \$14M Year-3 ARR target) with TAM/SAM/SOM, GTM sequencing, and risk register.
- Built customer-journey artifact ("The Beau") used in B2B sales — 10-step storyboard from booking through one-year re-engagement.
- Cross-functional leadership across engineering, design, GTM, and partnerships in a SAFe-aligned operating cadence.

UI/UX Designer, Clinicomp

February 2021 – 2023

San Diego, CA · Healthcare EHR

- Led the design team's transition to Figma; rebuilt component library and review cadence to improve cross-functional iteration speed.
- Partnered with clinical subject-matter experts and product managers on EHR workflows.
- Co-built a phased design system rollout that preserved customer continuity through visual modernization.

UI/UX Designer, Remedly

May 2019 – July 2020

San Francisco Bay Area · Healthcare EHR

- Owned end-to-end design for CRM, EHR, patient encounter, and calendar manager products across web (.NET) and mobile (iOS, Android).
- Conducted practitioner user research; outputs informed product priorities and feature scope.

Lead UI/UX Designer (Contract), Kizen

November 2018 – April 2019

Remote · AI-supported CRM SaaS

- Researched CRM market and validated product ideas via prototypes and usability testing; set foundational design direction for the early-stage product.

Graphic Designer & Digital Marketer, Spieth America

February 2017 – August 2018

Lansing, MI · Olympic Sports Products

- Marketing partnerships with US Olympic athletes; sub-brand development; annual product catalogs (2017, 2018); promotional materials.
