PROFESSIONAL SUMMARY

Director of Product currently building Lycia AI — an autonomous AI agent platform deployed in hotels, airports, malls, restaurants, and offices. Took the product end-to-end from concept through multi-vertical commercial deployment. Hybrid background spanning AI hospitality (Lycia), AI-integrated clinical-trial scheduling (Science 37), decentralized clinical trials (Vault Health), and healthcare EHR (CliniComp, Remedly). Comfortable owning a vertical from market research through pricing through release. SAFe Agile Expert. Multilingual.

PROFESSIONAL EXPERIENCE

Director of Product, Lycia AI Solutions

April 2024 – Present

San Diego, CA · Remote

- Own product, strategy, and design for an autonomous AI agent platform deployed across five verticals — hotels, airports, malls, restaurants, and offices. Built lyciaai.com end-to-end from concept through multi-vertical commercial release.
- Authored the multi-sided commerce-network thesis: hotels as demand side, restaurants / music venues / activities as supply side, with cross-side commission flows. Informs all major product, pricing, and GTM decisions.
- Defined pricing strategy across multiple verticals and SKUs (\$10/room/month flat and \$0 plus commission), informed by competitive analysis vs Mews, Cloudbeds, Hijiffy, Quicktext, Asksuite, Canary, PolyAI.
- Authored 40-page hospitality AI market analysis (AHLA, STR/CoStar, Cornell, Oracle, Phocuswright, Skift) used in sales, fundraising, and roadmap.
- Drove AI-first positioning from the data model up — staff inbox, multi-staff auto-assign with on-duty filtering and load balancing, sentiment-aware escalation, automation rules engine. Architectural choices became the company's differentiation.
- Authored 18-page strategic thesis on the U.S. independent-hotel expansion (\$288M SAM, 12,000 addressable properties, \$14M Year-3 ARR target) with TAM/SAM/SOM, GTM sequencing, and risk register. Cross-functional leadership across engineering, design, GTM, and partnerships in a SAFe-aligned cadence.

Senior Product Designer, Science 37

February 2023 – March 2024

San Diego, CA · Remote · Decentralized Clinical Trials

- Owned product design for an AI-integrated scheduling system supporting 4 active clinical trials, 330 multi-role staff (FTE / per-diem RN, CRC, INV, Pediatric RN, Dietitian), and 200 participants.
- Translated Science 37's stated operational disclosures (kit logistics, continuity-of-care matching, FTE / per-diem distinction, multi-state licensure) into hard scheduling rules in the product.
- Designed the AI-driven day-optimization explainability layer surfacing binding constraints — kit, continuity, licensure, drive distance — to build clinician trust.

Product Designer, Vault Health

June 2022 – February 2023

San Diego, CA · Decentralized Clinical Trials

- Designed patient onboarding, study coordinator tooling, and clinical data capture for Vault Health's decentralized clinical trials platform.

UI/UX Designer, CliniComp

February 2021 – June 2022

San Diego, CA · Healthcare EHR

- Led the design team's transition to Figma; rebuilt component library and review cadence to improve cross-functional iteration speed.
- Partnered with clinical subject-matter experts and product managers on EHR workflows; co-built a phased design system rollout that preserved customer continuity.

UI/UX Designer, Remedly

June 2019 – July 2020

San Francisco Bay Area · Healthcare EHR

- Owned end-to-end design for CRM, EHR, patient encounter, and calendar manager products across web (.NET) and mobile (iOS, Android).

Lead UI/UX Designer (Contract), Kizen

November 2018 – April 2019

Remote · AI-supported CRM SaaS

- Researched CRM market, validated product ideas via prototypes and usability testing; set foundational design direction for the early-stage product.

Graphic Designer & Digital Marketer, Spieth America

February 2017 – August 2018

Lansing, MI · Olympic Sports Products

- Marketing partnerships with US Olympic athletes; sub-brand development, product catalogs (2017, 2018), promotional materials.

EDUCATION

Saginaw Valley State University, Michigan · Bachelor of Arts in Graphic Design · December 2016

Dean's List 2013–2016

CERTIFICATIONS

SAFe Agile Expert · Scaled Agile, Inc. · 2021

SKILLS

Leadership: product strategy, vision setting, OKR/KPI alignment, hiring and team building, cross-functional team leadership, executive communication, P&L thinking, board-level reporting, mentoring.

Strategy: market sizing (TAM/SAM/SOM), competitive analysis, pricing strategy, go-to-market planning, two-sided and multi-sided marketplace dynamics, network effects, customer development.

Domains: AI / agentic AI / LLM applications, hospitality technology, decentralized clinical trials (DCT), healthcare EHR, SaaS, B2B, B2C, multi-vertical platforms.

Methodologies: Agile, SAFe, Scrum, Lean Startup, design thinking, jobs-to-be-done, hypothesis-driven development.

Tools: Figma, Notion, Linear, GitHub, Jira, Confluence, Google Analytics, basic SQL.
