PROFESSIONAL SUMMARY

Product manager with a hybrid product-and-design background. Currently Director of Product at Lycia AI — building autonomous AI agents for hospitality. Previously Senior Product Designer at Science 37 (designing an AI-integrated scheduling system for decentralized clinical trials) and product designer at Vault Health, CliniComp, and Remedy. Build product through customer research, market analysis, and ROI-driven prioritization. Ship from zero through commercial release. SAFe Agile Expert. Multilingual.

PROFESSIONAL EXPERIENCE

Director of Product, Lycia AI Solutions

April 2024 – Present

San Diego, CA · Remote

- Own product strategy for an autonomous AI agent platform deployed across hotels, airports, malls, restaurants, and offices; built and shipped from zero.
- Authored a 40-page hotel AI market analysis sourced from AHLA, STR/CoStar, Cornell, Oracle Hospitality, Phocuswright, Skift, and PolyAI; used in sales, fundraising, and product roadmap.
- Defined pricing strategy across two SKUs (\$10/room/month flat and \$0 plus commission); validated against competitor benchmarks (Mews, Cloudbeds, Hijiffy).
- Ran customer development with 5+ hotel general managers; insights drove the AI-first inbox redesign and multi-staff auto-assign feature.
- Wrote competitive-positioning playbook covering Mews, Cloudbeds, Hijiffy, Quicktext, Asksuite, Canary, PolyAI, Talkdesk, Oaky, Nor1, Duetto.
- Authored 18-page strategic thesis on U.S. independent-hotel expansion (\$288M SAM, 12,000 addressable properties) with TAM/SAM/SOM and 36-month plan.
- Cross-functional leadership across engineering, design, GTM, and partnerships in a SAFe-aligned cadence.

Senior Product Designer, Science 37

February 2023 – March 2024

San Diego, CA · Remote · Decentralized Clinical Trials

- Owned product design for an AI-integrated scheduling system supporting 4 active clinical trials (oncology, cardiology, endocrinology), 330 multi-role staff, and 200 participants.
- Translated Science 37's stated operational disclosures (kit logistics, continuity-of-care, FTE / per-diem staffing, multi-state licensure) into hard rules in the auto-suggest scheduling flow.
- Designed the day-optimization explainability UI — exposing the binding constraint per appointment to build clinician trust in AI-driven scheduling decisions.
- Partnered with clinical-ops product owners and engineering to translate trial-protocol requirements into shipped product.

Product Designer, Vault Health

June 2022 – February 2023

San Diego, CA · Decentralized Clinical Trials

- Designed product workflows for Vault Health's decentralized clinical trials platform — patient onboarding, study coordinator tooling, and clinical data capture surfaces.
- Partnered with clinical operations and engineering to ship trial-protocol-aligned product features.

UI/UX Designer, CliniComp

February 2021 – June 2022

San Diego, CA · Healthcare EHR

- Partnered with product managers and clinical subject-matter experts on EHR workflows; turned clinical research into shipped designs.
- Led the team's tooling migration to Figma; reduced designer-engineer iteration time and improved review velocity.
- Co-built a new design system rolled out without breaking existing customer workflows.

UI/UX Designer, Remedly

June 2019 – July 2020

San Francisco Bay Area · Healthcare EHR

- Owned product design across CRM, EHR, patient encounter, and calendar manager modules — for web (.NET) and mobile (iOS, Android).
- Drove user research with practicing clinicians; recommendations directly shaped product priorities.

Lead UI/UX Designer (Contract), Kizen

November 2018 – April 2019

Remote · AI-supported CRM SaaS

- Researched CRM market and validated product hypotheses through usability testing on interactive prototypes; converged team on highest-conviction direction.

Graphic Designer & Digital Marketer, Spieth America

February 2017 – August 2018

Lansing, MI · Olympic Sports Products

- Built brand and product marketing for US Olympic athlete partnerships; sub-brand development, product catalogs.

EDUCATION

Saginaw Valley State University, Michigan · Bachelor of Arts in Graphic Design · December 2016

Dean's List 2013–2016

CERTIFICATIONS

SAFe Agile Expert · Scaled Agile, Inc. · 2021

SKILLS

Product Management: product strategy, roadmap planning, customer development, customer interviews, market sizing (TAM/SAM/SOM), competitive analysis, pricing strategy, go-to-market (GTM), persona definition, OKRs, KPIs, prioritization (RICE, MoSCoW), product requirements documents (PRDs).

Methodologies: Agile, Scrum, SAFe, Lean Startup, design thinking, jobs-to-be-done, A/B testing, hypothesis-driven development.

Tools: Figma, Notion, Linear, Jira, Confluence, GitHub, Google Analytics, basic SQL, spreadsheet modeling.

Domains: AI / agentic AI / LLM applications, hospitality technology, decentralized clinical trials (DCT), healthcare EHR, SaaS, B2B, B2C, mobile, web, CRM.
